vision & mission - goals

Vision

Be a globally respected and sustainable world class IT Solution Company in Retail Industry.

Mission

Build a new Socio-Economic Retail Ecosystem by Leveraging new era of Digital Revolution.

Goals

By 2025, acquire and retain 30% market share in IT Retail Industry

Integrity

Our Team upholds mutual respect while providing services to our clients.

Commitment

We are committed to deliver our services with seriousness and thorough professionalism.

Customer Oriented

Our belief in customer satisfaction, is the key to our company's success!

Innovation

Offering the extra mile. KhudraSoft welcomes a pro-active work environment and idea initiation.

We provide the retail business society with the most advanced, cost effective and efficient ITES & ITBS solutions.

who we are - message

Through over three years of dedication and hard work, KhudraSoft Team was able to create hundreds of success stories that we proudly consider as assets of our successful client deliveries. Today we stand distinguished among the peers in the IT solutions industry owing to our high support offered by our employees, partners and associates.

We strongly believe that the success of our company lies in our ability to achieve our company's main goal: "Customer Satisfaction through perfection". With each step performed by our teams, in our every delivery, our team adhere to our core values that define who we are as individuals and as an organisation.
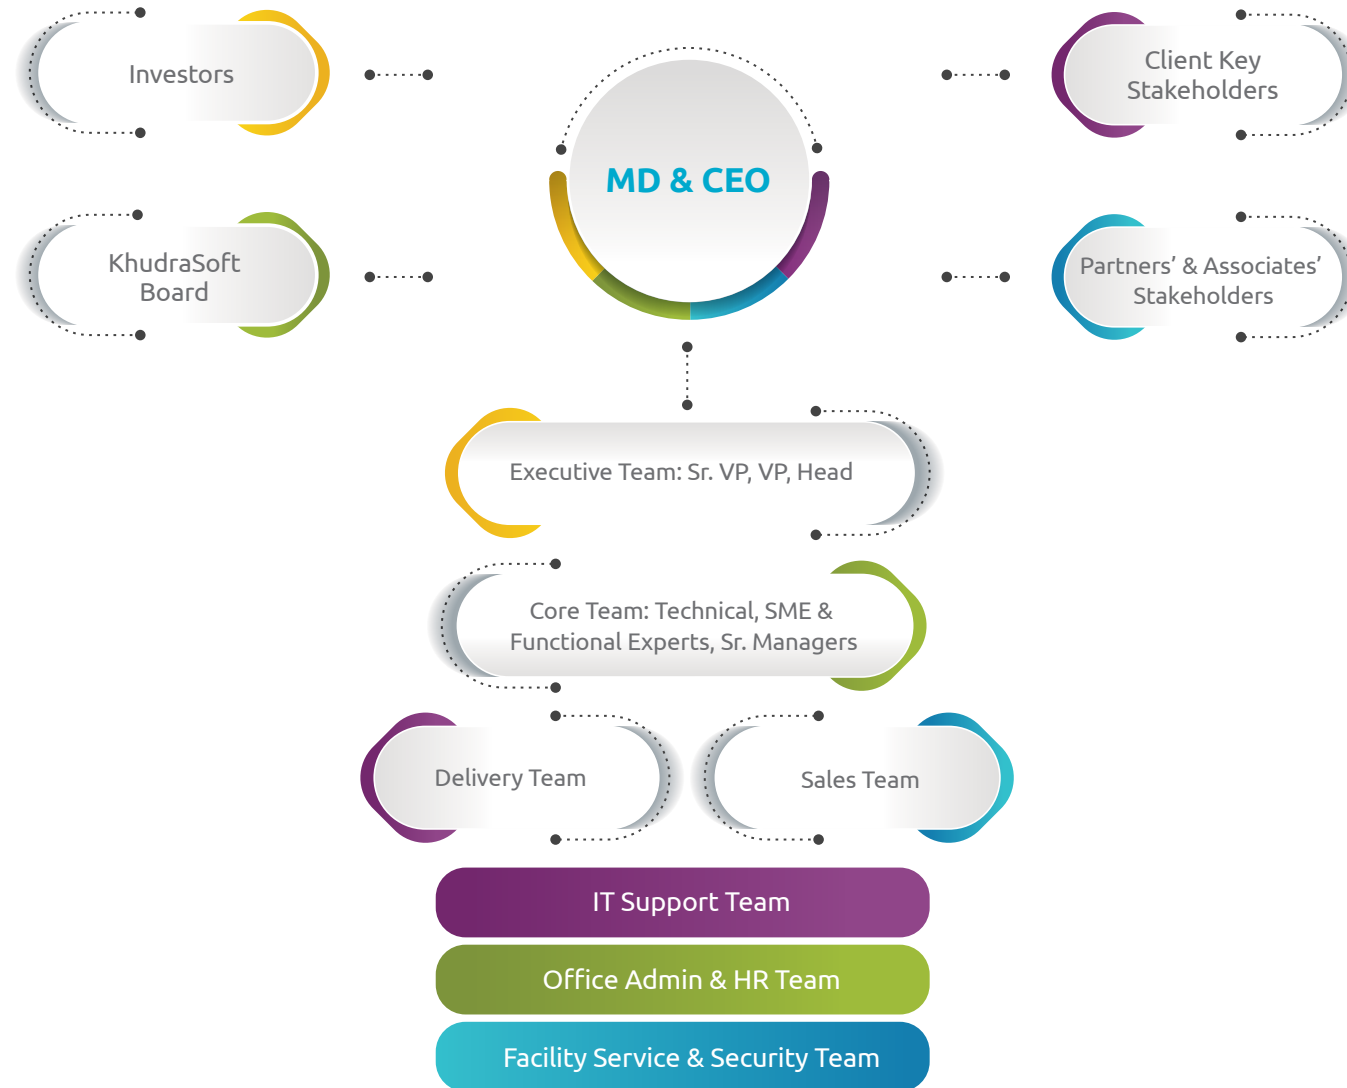

Established in 2015, KhudraSoft rapidly grew to become pioneer company in providing world class solutions through its products and services especially in the growing Indian retail market. We provide the retail business society with the most advanced, efficient and cost effective IT solutions. We strive to meet our customer needs and acheive their satisfaction through our proven delivery process model called Sans Defects; thus assuring a win-win approach for better results. Today, KhudraSoft is on the way to become a single platform solution provider under one umbrella in India.

We take this opportunity to say thank you to our customers who trusted us and gave us the opportunities to serve them best and also to our passionate and vibrant team which helped us to acheive these milestones.

who we are - about us

KhudraSoft is engaged in providing software solutions - products and services (ITES and ITBS) to business problems of our clients across the Retail domain in B2B and B2C business models adhering to all compliances as per the law of the land in the respective geographies including international security standards.

We are poised to launch India's first web scale architecture based ecosystem called KhudraERP Suite 1.0 - an umbrella platform for all organized and un-organized retailers across PAN India on our own upcoming Tier-IV Data Center, being setup at Hyderabad, Telangana, India. Also, we are on brink to launch India's first payment gateway of its own kind called KhudraPay especially dedicated for all retailers.

We are a passionate group of 16 highly skilled techno-functional professionals with cross platform expertise. Our average team experience is of 15+ years across every member which are scattered in 2 geographies in India. We are eagerly waiting to start our international operations soon from Atlanta, USA. We are actively persuing to find partners and strategic business collborations across the globe, especially in the MENAT region.

We strongly believe that our success depends on our client's success and is realized through establishing symbiotic partnership with them. Therefore, instead of just considering technology implementation as our goal, we focus on helping our clients to leverage technology to rapidly deliver their targeted business results.

what we are about - what we do

• KhudraSoft designs and develops software products and provide services for retailers across all the domains using our own SCRUM based product and project delivery process model called Sans Defect - a Zero Defect Delivery (ZDD) model and has proven delivery with success rate of 92% and more on our internal products in last three years.

• Our execution approach is based on our delivery core principles - Plan, Build and Deliver derived from our associated company IndiGNS.

• We provide services ranging from deployment and maintenance of our flagship products to custom development of projects including IT Infra projects like setting up Data Centres as per our clients' business needs.

• All these engagements are realized using onsite, offshore, onsite - offshore, and / or augmented teams based on client requirements.
